FROM: Eloise R. Page

SUBJECT: CIPC Study of NFIP Support to Contingency

25X1

REFERENCE: Your Memorandum dated 11 April 1986 (ER 86-1550)

1. We are working closely with [] DIA's Assistant Deputy
Director for Research and the Chairman of the CIPC's NFIP Support to
Contingency Operations Working Group, to get the CIPC study effort launched
expeditiously. The following summarizes our work to date:

25X1

- Terms of Reference have been reviewed by CIPC members, and comments are being incorporated in a final version. DIA provided the J-2s of selected Unified and Specified Commands copies of the TOR.
- On 23 April, [] chaired the first working group meeting. The discussion focused on defining "contingency operations" and developing a work plan. The next meeting is scheduled for 29 April.
- At the first meeting, working group members were encouraged to participate in the mid-May DIA Symposium on Low Intensity Conflict. The four-day symposium will provide a valuable opportunity for discussions with senior representatives of the U&S Commands. []

2. Once the group bounds its task, it will review how the members of the Community currently support contingency operations and will examine projects, programs, and technologies that could have application to enhance our support to contingency operations. While the diverse topics to be covered are highly complex, the working group has been apprised of the urgency attached to the study. [redacted]
